

# IMPACT OF A GIVING HEART

MINISTRY UPDATE

## Kenya: Celebration in the Midst of Hardship

Master Builders celebrated the graduation of kindergarten and grade 8 students in March. It was a bittersweet celebration. Although they gathered to celebrate the joy of a year of education, for grade 8 students it was their last year at Master Builders, a place that offers not only education, but food, safety, and love.

### Facing a Crisis

Due to new government regulations, schools must have a specific amount of land and playground space to remain open. Master Builders is facing closure due to this new regulation and would need to purchase the 1/2 acre of land beside the school to continue to serve their student body of 322. For many, Master Builders is their only source of daily food and opportunity at education. We are eager to see the children of the Gichagi slums survive and thrive. The land cost is an incredible \$80,000 USD. This is unimaginable for them as they have been striving to just gain support for daily needs of the children and teachers. We are praying and looking forward to seeing how God will meet the needs of his children in Kenya.

“

*From the very beginning of our vision to impact the community in Gichagi Slums we knew we had to nourish them not only spiritually, but physically as well. And we have seen the transformation in society as families are able to sleep with warm bellies, with one less care to worry about. We have realized that this community becomes more susceptible to hearing the good news of God when they can relate to a Father who cares for them enough to feed them when they are hungry.*

## Pakistan: Caring for the Sick & Training the Well

The first few months of 2022 have been busy for Dr. Ambrose and Healing Journeys Foundation. They were able to offer their first TLAP training of the year (Training Locals & Aware People), training six people to care for the sick in the remote areas of Pakistan. TLAP has now trained forty-eight people! New trainees were sent home with a digital thermometer, stethoscope, glucometer, and blood pressure apparatus. "My heart is filled with joy and gratitude. Thank you for your prayerful and supportive participation in making TLAP-5 possible," says Dr. Ambrose.

Along with TLAP trainings, Dr. Ambrose is hard at work with the HJF Children's Center and has a medical outreach scheduled for May.

## Mexico: Making Memories & Loving God's Children

Give New Life Mexico is growing and so are the ways in which your gifts have blessed the children. Just last week you made it possible to take a group of children to the beach. For many, this was their very first time seeing the ocean! It was a wonderful trip with memories they will cherish for a lifetime. They rode in a boat, biked together, ate well, relaxed on the beach, and played in the ocean.

Recently, a group of Colombian missionaries visited the farm. Josué says of their visit, "The highlight of the Colombia trip was a night retreat with a fire, food, worship, and prayer. It was a great time to connect with the Lord and the children."

Are you ready for more good news? Thanks to your generosity, the farm is one step closer to being owned by Give New Life. They are grateful to have been able to pay \$25,000 on the land this March through your faithful support. They are growing in numbers, growing in crops, and growing in Jesus!

## Indonesia: Transforming Youth

Here is a sneak peak into one of the ways God is working through the ministries in Indonesia. Youth are coming to know the Lord and mentoring other youth. TYI offers a sponsorship opportunity for 7th-12th graders in the program. Email [motekar.tyj@gmail.com](mailto:motekar.tyj@gmail.com) if you are interested in sponsoring a student. The suggested monthly donation is \$38.

## Haiti: HEART Teams Up with Feed the Hunger

Thanks to the efforts of Feed the Hunger and Pastor Maxeau in Haiti, Tabarre Christian Academy received their first shipment of food! We are so grateful for this partnership. Thirty-five boxes of rice and beans, packed with all the nutrients needed for a day's diet, safely reached the school in March. We were thrilled to receive pictures of their first meal! Each box was lovingly packed during a pack-a-thon event. These take place all around the country throughout the year.

Also in March, Tabarre students had "Fruit Day" where they learned about a variety of fruits and enjoyed eating them together. Although this school and its children continue to have many needs, we are thankful for the recent gifts and new partnerships that make it possible to feed the children of Tabarre both physically and spiritually!

# MINISTRY PARTNER NEEDS

## Haiti

- Project: Completion of Clersaint Home - \$8,500 remaining for project completion. (Avenel)
- Ongoing: School Funding - \$200 pays one teacher for a month. Tabarre Christian Academy has grown to 23 teachers!

[MEET THE NEED](#)

## Pakistan

- Project: Cooling of Children's Center - \$1,500 USD
- Medical Outreach: Funding for one outreach - \$550 USD
- Vehicle for transporting children to school/church - \$8,000 USD remaining for purchase

[MEET THE NEED](#)

## Kenya

- **URGENT DEADLINE**: Land purchase to keep the school in government compliance. Cost: \$80,000 USD
- Ongoing: School funding and new partnerships to allow feeding of students and paying of teachers.

## HEART Ministries News

- Our administrative team will be visiting Give New Life Mexico this summer to see the children, visit with Josué and Karla, and check out the work being supported there.
- We have just partnered with Bloomerang to provide you with a more robust donor experience. We hope that once the conversion is complete, you will enjoy this change and we can communicate with you more easily regarding ministry updates and events.
- HEART will be hosting a pack-a-thon later this year in partnership with Feed the Hunger. Stay tuned for more information and ways in which you can get involved.
- Our new website will soon be complete and we are looking forward to sharing it with you.

Didn't see an update from the ministry you support? Don't worry. We will continue to provide updates as we receive them!

## Will You Partner With Us?

Here at HEART we are committed to serving the needs of our Ministry Partners. We want every dollar donated to our Ministry Partners to go to work, therefore we do not charge fees for service. This doesn't mean we do not have operating costs. We currently have two full-time staff, rent, general operating expenses, and travel expenses to visit the ministries we serve.

We pray that you will support HEART's General Fund so we can continue to provide these much needed services to our Ministry Partners free of charge. Your generous giving not only covers our day-to-day expenditures and staff salaries, but we have committed to setting aside 10% so we can provide assistance for emergent humanitarian needs as they arise. **Together, we make a difference!**
